Variable annuities are long-term investment products designed for retirement purposes and are subject to market fluctuation, investment risk, and possible loss of principal. Variable annuities contain both investment and insurance components and have fees and charges, including mortality and expense, administrative, and advisory fees. Optional features are available for an additional charge. The annuity's value fluctuates with the market value of the underlying investment options, and all assets accumulate tax-deferred. Withdrawals of earnings are taxable as ordinary income and, if taken prior to age 59½, may be subject to a 10% federal tax penalty. Withdrawals will reduce the death benefit and cash surrender value.

**Investors are advised to consider the investment objectives, risks, and charges and expenses of the variable annuity and its underlying investment options carefully before investing. The applicable variable annuity prospectus contains this and other important information about the variable annuity and its underlying investment options. Please call 800-4LINCOLN (800-454-6265) for a free prospectus. Read it carefully before investing or sending money. Products and features are subject to state availability.**

*Multi-Fund*<sup>®</sup> variable annuities (contract numbers 18829, 18831, 25982, 28645, 28883, 30070-B, and state variations) are issued by The Lincoln National Life Insurance Company, Fort Wayne, IN, and distributed by Lincoln Financial Distributors, Inc., a broker-dealer. **The Lincoln National Life Insurance Company does not solicit business in the state of New York, nor is it authorized to do so. Contractual obligations are subject to the claims-paying ability of The Lincoln National Life Insurance Company.**

Some investment options may not be available in all states, and your employer may restrict the availability of some investment options. The investment return and principal value of an investment will fluctuate so that, when withdrawn from the contract, it may be worth more or less than the original cost.

There is no additional tax-deferral benefit for an annuity contract purchased in an IRA or other tax-qualified plan. Not available in New York.
